

THE BEST ENTERPRISE MOBILITY EXPERIENCE

SOTI MOBICONTROL AND ZEBRA SOLUTIONS

SOTI MobiControl is a proven mobility management solution that makes Enterprise Mobility Management (EMM) easier than ever before. Zebra Technologies empowers those on the frontline in: retail, healthcare, manufacturing, transportation and logistics, and other industries to achieve a performance edge.

Together, SOTI and Zebra Technologies deliver innovations designed to maximize productivity, boost efficiency and simplify workflows.

WHY SOTI AND ZEBRA?

ZEBRA LIFEGUARD OVER THE AIR (OTA)

MANAGE OTA UPDATES FASTER AND MORE EFFICIENTLY

- Enhance mobile security and optimize user productivity by ensuring the correct Zebra device firmware and OS patches are installed.
- Streamline device updates to allow system administrators to be more efficient.

ANDROID ENTERPRISE MIGRATION

CONSOLIDATE YOUR DEVICE MANAGEMENT STRATEGY ON ANDROID ENTERPRISE

- Convert Android devices working under legacy Android Classic (also known as Device Administrator mode) to Android Enterprise managed devices remotely without a factory reset.

OEMCONFIG

SUPPORT FOR YOUR CONFIGURATION SETTINGS FROM DAY ONE

- Tap into an extensive list of device configurations and settings which are not part of the core Android Enterprise API set to properly secure and provision Android-based Zebra devices.
- Create custom settings for things like screen timeout values, notification disablement, SD card encryption, battery optimization for app usage and Bluetooth® settings.

SINGLE PANE OF GLASS MANAGEMENT

TOTAL CONTROL OVER ALL YOUR ZEBRA DEVICES

- Full support for Zebra mobile computers including: traditional Windows Mobile scanners to modern, Android-based equipment, and rugged tablets.
- Update the device firmware, configure label settings and completely manage Link-OS enabled printers from the same user interface.
- Access a comprehensive list of management controls for Zebra FX7500 and Zebra FX9600 RFID readers with new Linux support. Enable firmware updates, view asset information, manage apps, monitor alarms and interact with the native configuration console remotely.

VISIBILITY IQ FORESIGHT

MAKE SMARTER DECISIONS WITH A POWERFULLY INTELLIGENT DATA-DRIVEN ANALYTICS SOLUTION

- SOTI MobiControl is a crucial element of Visibility IQ Foresight. It provides the device data needed to create a customized analytics dashboard.
- Use data-driven business intelligence (BI) to get the most from your devices, mobile workers and tasks.
- Proactively identify and remedy small issues before they turn into big problems.
